During the week of November 2nd, universities and colleges around the country will celebrate the 13th Annual National Nontraditional Student Week. Pitt’s theme this year is “Pittsburgh and the World,” which is meant to draw attention to both the diversity of our great city and the possibilities for Pitt students become even more globally engaged.

Many of the major events will center on this theme while additional events will be aimed at helping students thrive both inside and outside the classroom. Most importantly, this week allows us to pay a little more attention to the wonderful contributions that nontraditional students offer to our university. If you have any questions, please contact Adam Robinson at awr15@pitt.edu. Enjoy!
