IMPROVING HIGH-STAKES EXAMS IN ONLINE COURSES

with Lindsay Onufer and Daryl Putman

Virtual Workshop

Tuesday, Oct. 27th

12:00–1:00 p.m.

ZOOM

Scan QR code to RSVP.

Join us for an interactive workshop offered in collaboration with the Teaching Center and CGS Online Learning.

If you use high-stakes exams in online courses, or are planning to, this workshop will help you think beyond traditional exam models and explore what high-stakes assessments can do in an unproctored online environment.

We'll Share Practical Strategies for:

- ✦ Designing exams that support higher-order learning
- ✦ Writing effective questions that go beyond simple lookup and AI-generated answers
- ✦ Using Canvas settings to support exam integrity
- ✦ Interpreting Canvas quiz analytics and psychometrics

Hands-On Practice & Q&A

Attendees will have an opportunity to redesign an exam question or participate in a Q&A.
